Nordic Singapore Innovation Days 2025

Inauguration

🕒 Wednesday 29 October, 12.00–17.00 📍 SWITCH, Marina Bay Sands, Cassia Jr, Level 3

Build bridges. Scale impact. Go global.

Welcome to the official launch of Nordic Singapore Innovation Days 2025 — an initiative designed to accelerate green innovation, foster deeptech collaboration, and connect leading actors across the Nordic and Singaporean ecosystems.

This Inauguration Day brings together influential voices from both regions — including startups, investors, corporates, incubators, and public agencies — to explore shared challenges and unlock new opportunities. Through keynotes, panel discussions, startup pitches, and strategic announcements, we'll explore how the Nordics and Singapore can co-create solutions to global climate challenges through innovation, investment, and partnership.

Held during Singapore Week of Innovation and Technology (SWITCH), this unique gathering prioritizes corporates and investors eager to engage with high-potential Nordic startups and scaleups. Please note that space is limited — register your interest today.

This is where global partnerships begin — and where innovation meets impact.

REGISTER

Please note that space is limited — register your interest today.

Business attire: Business casual
