

Nordic Singapore Innovation Days 2026

Meet the Startups

Meet Nordic startups solving real industry challenges

Join a curated matchmaking session designed for corporates looking to explore new technologies, fresh solutions, and concrete collaboration opportunities.

Through startup pitches and pre-matched 1:1 meetings, you'll meet a selection of promising Nordic startups and scaleups relevant to your business needs. Whether you are scouting innovation, exploring pilots, or looking for new partnership opportunities, this session offers a focused and efficient way to connect.

Agenda

8:45–9:05 Doors open & welcome

9:05–9:20 Welcome presentation by Ignite Nordic

9:20–9:45 Startup pitches – 1-minute startup pitches

10:00–12:00 Curated 1:1 meetings between startups and corporates

What you gain

Direct access to relevant startups, curated meetings based on your interests, inspiration from emerging Nordic innovation and opportunities for pilots, partnerships, and future collaboration

Practical Details

Date & Time: October 28th, 8:45-12:00

Location: Embassy of Lithuania - 18 Robinson Rd, #10-01, 18 Robinson Singapore, Singapore 048547

Cost: Free of Charge

Want to Participate? Contact elijah.aldana@ignitenordic.org by October 21st

Participating Startups

INOBIOSTAR

Solution

InnoAerogel is a wastepaper-based sorbent for oil spill prevention and clean-up: fully sustainable, hydrophobic, twice as light and effective as synthetic industrial sorbents, biodegradable and up to five times reusable. Integrated marine oil-degrading microorganisms raise clean-up efficiency. Patented in the EU, with an EPO application submitted.

Industries

Maritime, Environmental Tech, Oil & Gas

Investment Stage

Pre-Seed

Website

Pitch Deck

Participating Startups

Kscale Robotics

Solution

Kscale Robotics develops autonomous robots that take on repetitive, physically intensive and tedious but essential tasks, freeing people for creative and strategic work. The social robots are built around a user experience designed to make people want to interact with them.

Industries

Robotics, Hospitality, Maritime

Investment Stage

Pre-seed

Website

Pitch Deck

Participating Startups

STUART
ENERGY*

Stuart Energy

Solution

Stuart Energy provides intelligent energy management for businesses and infrastructure operators: EV charging management, battery energy storage and load balancing, solar integration and consumption optimisation. AI-powered tools speed up fault diagnosis, and a dedicated cybersecurity offering protects solar PV and BESS installations against cyber threats.

Industries

EnergyTech, EV Charging, Battery Storage

Investment Stage

Early Series A

Website

Pitch Deck

Participating Startups

VARCUS

VARCUS Solutions

Solution

ESBEN by VARCUS is an AR navigation assistant and predictive safety software for maritime crews. It overlays critical AIS and sensor data directly onto the navigator's horizon via lightweight smart glasses, reducing cognitive load and preventing human error.

Industries

Maritime, AR/VR, Safety Tech

Investment Stage

Seed

Website

Pitch Deck

Participating Startups

Cetasol

Solution

Cetasol delivers AI-powered vessel intelligence to fleet operators. Turning onboard data into real-time insight on fuel use, performance and efficiency. CetaFuel measures fuel virtually on vessels without flow meters, cutting hardware cost and deliver fuel savings. Supports EU MRV, IMO DCS and CII compliance.

Industries

Maritime, Energy Efficiency, AI & Data Analytics

Investment Stage

Series A

Website

Pitch Deck

Participating Startups

Acodyne

Solution

Acodyne is developing the world's fastest unmanned eVTOL aircraft for heavy payloads, designed for cargo delivery on hard-to-reach missions in both civil and defence applications. The electric platform offers a greener alternative to road freight, reducing emissions, congestion and pressure on transport infrastructure.

Industries

Aerospace, Logistics, Defence

Investment Stage

Pre-seed

Website

Pitch Deck

BlueRedGold runs the world's most automated indoor farming of high-end saffron, using AI robots and precision automation to develop new standards for saffron production.

AgTech, FoodTech, Nutraceuticals

Series A

Website

Pitch Deck

Participating Startups

DoksOps

Solution

DoksOps turns a live AWS account into up-to-date documentation. A read-only scan produces architecture diagrams, security and cost reports, disaster recovery plans, technical due-diligence and IPO-readiness reports, and audit evidence for SOC 2, ISO 27001 and Singapore's MAS Cyber Hygiene, with checks based on CIS and AWS Well-Architected.

Industries

Cloud Infrastructure, Cybersecurity, Compliance

Investment Stage

Pre-seed

Website

Pitch Deck

Participating Startups

MontLibre Group (Holding AB)

Solution

xGeo is a verified scientific digital system and service for detection, analysis and 3D visualisation of critical geological resources, including minerals, metals, rare earths, water, geothermal energy, hydrocarbons and gemstones. It enables faster, more efficient and safer exploration while raising protection of local environments, populations, ecosystems and groundwater.

Industries

Mining, Critical Minerals, Geospatial

Investment Stage

Opening first seed round

Website

Pitch Deck

Participating Startups

Resistomap Oy

Solution

Resistomap is a biosecurity intelligence layer for water systems, making antimicrobial resistance visible in routine water management. It combines environmental DNA, high-throughput qPCR, AI-assisted analytics and a cloud Water Biosecurity Platform, converting molecular data into decision-ready metrics that verify treatment performance, detect hotspots and support safer water reuse.

Industries

WaterTech, BioTech, Environmental Monitoring

Investment Stage

Seed

Pitch Deck

Participating Startups

Type4Work

JuttAI OÜ

Solution

Type4Work is an AI-powered recruitment assistant that takes over the first conversation with candidates through channels they already use, such as WhatsApp and SMS. Recruiters set all screening questions and criteria; the AI does not evaluate candidates or make hiring decisions on its own, supporting EU AI Act compliance, and returns a ranked candidate list.

Industries

HRTech, AI, Recruitment

Investment Stage

Pre-seed

Website

Pitch Deck

Participating Startups

Inion software

Solution

Inion Software has developed a hardware-agnostic, one-stop software ecosystem that unifies AI-driven Energy Management Systems (EMS), Power Plant Control (PPC) and advanced SCADA monitoring into a single platform for solar, wind and battery energy storage systems.

Industries

EnergyTech, Renewable Energy, Battery Storage

Investment Stage

Seed

Website

Pitch Deck

Participating Startups

Digiotouch

Digiotouch

Solution

Digiotouch AI is a secure, GDPR-compliant AI meeting assistant for desktop, mobile and web, supporting over 130 languages with high-accuracy transcription and speaker identification. It generates structured summaries, action items and decisions, and builds a searchable company brain.

Industries

AI, Enterprise Software, Productivity

Investment Stage

Seed

Pitch Deck

Participating Startups

Aeronis

Aeronis AB

Solution

Aeronis develops AI-powered edge computing and distributed intelligence for critical infrastructure and resilient connectivity. By processing and acting on data at the edge, it reduces reliance on centralised cloud, lowers bandwidth and energy use, cuts latency and improves resilience in remote or infrastructure-constrained environments.

Industries

Edge AI, Critical Infrastructure, Telecommunications

Investment Stage

Pre-seed

Website

Pitch Deck

Participating Startups

Bluehills OÜ

Solution

Bluehills combines human expertise with AI-powered automation in a single service spanning AI tools, workflow automation, digital process management and operational support. It streamlines workflows and automates repetitive tasks so clients cut administrative burden and operating costs without expanding their teams.

Industries

AI, Automation, Enterprise Software

Investment Stage

Founder-funded

Website

Pitch Deck

Illuminum AB

Solution

Illuminum builds gaia.eco. A one-stop shop for biodiversity data. We centralise different types of ecological data from various source into one biodiversity platform with AI-powered features. Professionals in urban planning, forestry, and consulting use it for compliance, blue-green design, and risk assessments. Nature enthusiasts use it to explore wildlife. Our goal: make sustainability analytics cheap, democratised, and data scientific. Scaling biology to 5 billion people.

Industries

NatureTech, Geospatial, AI & Data Analytics

Investment Stage

Pre-seed

Website

Pitch Deck

Participating Startups

Spritju

Solution

Spritju provides hourly verification of electricity sources, enabling transparent traceability and reliable sustainability reporting. The platform supports 24/7 carbon-free energy targets and a scalable marketplace for Energy Attribute Certificates, including Singapore's Renewable Energy Certificates, bridging clean energy generation and consumption.

Industries

EnergyTech, Renewable Energy, Sustainability Reporting

Investment Stage

Seed

Pitch Deck

Participating Startups

Skanio

Solution

Skanio turns LiDAR elevator surveys into reusable digital twins, giving teams remote access to measurements, visual context and AI-ready asset intelligence. No repeat visits, no guesswork.

Industries

PropTech, Digital Twins, Building Technology

Investment Stage

Seed

Website

Pitch Deck

Participating Startups

Energy Node AB

Solution

Energy Node is developing Heat Node, a family of enhanced phase change materials that absorb, store, spread and redistribute heat directly where it is generated. Combining phase change materials with engineered thermal additives and stabilisers, it replaces complex active cooling and oversized components in electrified and energy-intensive systems.

Industries

Energy Storage, Advanced Materials, Thermal Management

Investment Stage

Website

Pitch Deck

Participating Startups

MASE HOME AS

Solution

MASE Home develops interior adaptive robotics: modules that let one room change function through the day, turning a sofa or desk into a full bedroom at the press of a button in under 30 seconds. The transformation is fully autonomous, with obstacle detection and a manual mode. Patented, produced in the EU and already installed in live projects.

Industries

PropTech, Robotics, Smart Living

Investment Stage

Seed

Website

Pitch Deck

Participating Startups

SemantiSys AS

Solution

SemantiSys develops a voice knowledge base on AR smart glasses for aviation maintenance. Every answer is verified against the operator's approved documentation and correct for the exact aircraft and serial number, with automatic audit logging.

Industries

Aerospace, AI, AR/VR

Investment Stage

Pre-seed

Website

Pitch Deck

Participating Startups

ignitia

ignitia

Solution

Ignitia is an AI-native weather and climate intelligence platform that de-risks climate volatility for infrastructure, logistics, agriculture and climate finance. Physics-informed AI and a 30-year synthetic reforecast dataset deliver hyper-local intelligence from 1 km real-time nowcasting to 14-day forecasts, seasonal outlooks and multi-decade climate risk scores, without physical ground radar.

Industries

ClimateTech, Weather Intelligence, Risk Analytics

Investment Stage

Series B upcoming

Website

Pitch Deck

Participating Startups

Adsorbi

Solution

Adsorbi delivers high-performance air filtration with a significantly lower environmental footprint, while fitting seamlessly into existing filter designs. Its cellulose based material extends filter lifetime, reduces pressure drop and energy consumption, and can cut production related CO₂ emissions by up to 90% compared with fossil-based activated carbon. For manufacturers and end users, this means better performance, lower operating costs, fewer filter replacements, and improved sustainability without costly changes to existing systems.

Industries

Advanced Materials, Air Filtration, CleanTech

Investment Stage

Seed

Website

Pitch Deck

Participating Startups

Mycro3D ApS

Solution

Mycro3D is developing a new generation of high-precision microscale 3D printing, letting companies rapidly manufacture complex components. The patented technology combines around 10 micrometre resolution and high repeatability with a broad range of commercially available photopolymers, expanding into advanced materials such as ceramics.

Industries

Additive Manufacturing, MedTech, Semiconductors

Investment Stage

Pre-seed

Website

Pitch Deck

Participating Startups

R8 Technologies OÜ

Solution

R8 Technologies provides AI-powered building optimisation through its R8 Digital Operator. It connects to existing building management systems and automatically optimises heating, cooling and ventilation to reduce energy consumption, costs and CO2 emissions while maintaining indoor comfort.

Industries

PropTech, Energy Efficiency, Building Automation

Investment Stage

Seed

Website

Pitch Deck

Participating Startups

City Nomadi

Solution

Citynomadi provides multimodal wayfinding and situational mapping solutions for complex environments such as real estate portfolios, event venues and industrial sites. Its platform helps organizations improve mobility, safety and operational efficiency while reducing emissions and generating valuable location and movement data.

Industries

Smart Cities, PropTech, Industrial Digitalization

Investment Stage

Series A

Website

Pitch Deck

Participating Startups

Revontulet

Solution

Revontulet is a Norwegian threat intelligence company that builds Cortexia, an analysis hub that connects intelligence data from multiple sources (screening lists, vessel movement, corporate registries, social platforms) into a single graph. We deliver analyst led intelligence with full chain of custody provenance, meaning findings can be defended before regulators, boards, or courts. Their work has contributed to terrorist organization designations, newsroom investigations, and the prevention of terrorist attacks.

Industries

Cyber Security, Resiliency, Critical Infrastructure

Investment Stage

Seed

Website

Pitch Deck

Participating Startups

Rollyy

Solution

Rollyy develops AI-powered autonomous EV charging robots and smart city mobility platforms, eliminating the need for costly fixed infrastructure. Their technology combines robotics, AI, 5G connectivity, and geospatial data to give cities, parking operators, airports, and fleets flexible and scalable access to EV charging, while layering in real-time urban mobility intelligence.

Industries

Smart Cities, EV Charging, Robotics

Investment Stage

Pre Seed

Website

Pitch Deck

Participating Startups

SweGreen

Solution

Swegreen is an AgTech / Urban Farming startup providing automated, hyper-local in-store vertical farming systems. Their end-to-end platform combines hardware, software, AI/cloud monitoring, and ongoing maintenance to enable supermarkets, restaurants, and catering facilities to grow fresh, pesticide-free leafy greens and herbs on-site with zero logistics or traditional supply-chain footprint.

Organizers

Startup Estonia

Startup Estonia is a governmental initiative aimed at developing Estonia's startup ecosystem and positioning it as one of the most vibrant in Europe. The initiative supports founders by strengthening the local environment, providing access to resources, and fostering connections between startups, investors, and international partners. Startup Estonia's mission is to make Estonia the best place to launch, grow, and scale innovative companies.

[Click here to read more](#)

Innovation Agency Lithuania

Innovation Agency Lithuania is the national agency for innovation, supervised by the Ministry of Economy and Innovation. The agency supports businesses in developing and commercialising innovations, strengthens startup ecosystems, promotes green and digital transitions, and fosters international collaboration in research and innovation.

[Click here to read more](#)

Nordic Innovation

Nordic Innovation is an institution under the Nordic Council of Ministers that works to promote cross-border innovation and sustainable growth across the Nordic region. Nordic Innovation supports entrepreneurship, facilitates joint Nordic innovation initiatives, and strengthens Nordic competitiveness in global markets.

[Click here to read more](#)

Supporting Partners

Enterprise Singapore

Enterprise Singapore is the government agency championing enterprise development. It also supports the growth of Singapore as a hub for global trading and startups.

With Enterprise Singapore's global network in over 35 locations spanning many developed and emerging markets, it connects businesses with relevant Singapore companies for their business expansion.

[Click here to read more](#)

SGInnovate

SGInnovate is a Deep Tech ecosystem builder and investor, backed by the Singapore Government. Their expertise and approach combines investments, talent development and community-building to catalyse the translation of emerging technologies into tomorrow's opportunities.

Through their flagship Deep Tech Central platform, SGInnovate connect individuals, founders and companies to specialised resources and opportunities across all technological domains and stages of growth. Their investment portfolio of emerging tech startups comprises some of the most promising companies leading the commercialisation of research developed from Singapore's RIE ecosystem.

[Click here to read more](#)

EDB

The Singapore Economic Development Board (EDB) is a government agency under the Ministry of Trade and Industry, responsible for driving Singapore's sustainable economic growth. EDB partners with global companies, investors, and innovators to create new business opportunities and strengthen Singapore's position as a leading hub for investment and innovation. Its mission is to foster a vibrant economy that creates good jobs and enhances Singapore's global competitiveness.

[Click here to read more](#)

Supporting Partners

Embassy of Sweden in Singapore

The Embassy of Sweden in Singapore promotes bilateral relations, trade, and cultural exchange between Sweden and Singapore, supporting Swedish businesses and citizens abroad.

[Website](#)

Embassy of Denmark in Singapore

The Embassy of Denmark in Singapore works to promote Danish interests, trade, and innovation partnerships, while also assisting Danish citizens in the region.

[Website](#)

Embassy of Estonia in Singapore

The Embassy of Estonia in Singapore strengthens diplomatic, economic, and innovation ties, helping Estonian companies and fostering collaboration across Southeast Asia.

[Website](#)

Embassy of the Republic of Lithuania to the Republic of Singapore

The mission of the Embassy of Lithuania in Singapore is to foster diplomatic, economic, and cultural relations between Lithuania and Singapore, as well as other countries in Southeast Asia.

[Website](#)

Embassy of Finland in Singapore

The Embassy of Finland in Singapore advances Finland's economic, political, and cultural cooperation with Singapore and the wider region, supporting companies and citizens.

[Website](#)

Royal Norwegian Embassy in Singapore

Embassy serves Norwegian citizens and works to secure and enhance Norwegian political and business relations in Singapore.
